

Roto-Rooter® Fragrance Blocks

The Fragrance Block is an economical alternative to the Urinal Block for commercial applications. Roto-Rooter's Fragrance Block has a cherry fragrance for deodorizing purposes. The biological formula also helps dissolve mineral deposits, hard water scale, and uric salts to provide continuous drain maintenance. The screen surrounding the block helps prevent debris from entering the drain line. Each 4 ounce block lasts for approximately 60 days depending on usage. Sold as 12 Fragrance Blocks per case.
