

# Roto-Rooter® Lift Station Grease Dissolver

The Roto-Rooter Lift Station Grease Dissolver provides an easy solution to organize waste build-up that can cause problems. The Lift Station Grease Dissolver is composed of safe and natural bacteria that works to reduce odor, sludge, fats, oils, and grease build-up.

## Why Should I Try Lift Station Grease Dissolver?

- Allows for 24 hour continuous treatment of waste, not just periodic dosage
- Greatly reduces labor time needed for dosage maintenance
- Reduces hydrogen sulfide and sludge build-up
- Easy to use
- Significantly reduces odors
- Cost effective and reduces the need for pump-outs
- Breaks down fat and grease buildup and maintains lift station efficiency
- Eliminates need for metering pump - no initial or maintenance cost
- Eliminates need for personnel to dose other types of treatments daily or weekly

## Dosage Information

This block will dissolve over a 30-90 day period as the waste water flow washes over it. Higher flow rates will result in faster degradation

75KGD - 250KGD      5 lb. Block

250KGD - 1MGD      10 lb. Block

1MGD +              30 lb. Block
